The Sacred Name – Jesus?

Claims:

It is impossible to translate a name from one language to another

The name *Iesous* (Ἰησοῦς) did not even exist before the crucifixion; it was invented by the Romans (or the Jews, or the Catholic Church, or Constantine)

Iesous is a pagan Greek name

Iesous was fabricated by an enemy of the faith and means 'Behold the horse!' or maybe 'a pig' or 'Hail, Zeus'

Yeshua has a meaning in Hebrew, but *Iesous* does not mean anything in Greek

Greek or Latin names are by definition polluted with paganism, therefore, the Lord could not have the name *Iesous*

The use of Jesus or other forms is a plot by the Vatican to blaspheme God and the Saviour, and if you use that form, you have fallen into their trap and are apostate

Iesous has nothing to do etymologically with the Hebrew name Yeshua
